Categories: Flat Panel Ceiling Mounts, Flat Panel Mounts

Universal ceiling mount bracket, adjustable and tiltable, steel made. The bracket consists of 3 parts: fixing system on the ceiling, controlled inclination system (Tilting System) and the Universal frame. To fix on the ceiling there are four holes Ø11mm in the flange on top of the tube. In the bottom of the tube here is the Tilting System. This kind of system allows to rotating a +20° or -10° angle of inclination, using an exagonal key in the equipment. It is also possible to rotate the system around the vertical axis for 360°. The "Maxi" frame (1100x661mm) is compatible with holes on wheelbases from 74-406mm and 594-1000mm in horizontal and from 80 to 465 in vertical. The telescopic arm grants to regulate the central part of the monitor at the height from 75 to 125cm. Its possible to adjust the height of the monitor with 10cm steps. It is necessary to work in safetely conditions to use two M6 screws on the base of the frame. The tubes are drilled to make the cable's passage is possible inside the bracket. Time to assemble the stand: 5 minutes.
