Typology	Ground Mounts
DIAGONAL OF THE MONITOR	up to 46”-49”-52”-55”
Color	Black
Material	Steel

Categories: Flat Panel Mounts, Infinigrid

Wheeled stand for 3x3 video-monitors.
The central structure and VIDEO-WALL technologies used are the same as the ones you can find in other INFINIGRID products. Thanks to its solid frame and micro-adjustment it enables, therefore, perfect calibration for ANY monitor, thus eliminating gaps between screens and ensuring utmost stability.
Its main peculiarity is for sure its bottom base, with a very fine design shape and weight displacement downwards - which is also the reason why INFINIGRID can be lifted from the ground up to 1.2 m high.
Moving the frame is very easy and effortless thanks to its robust, stable and ergonomic wheels. The brake – which can be easily activated with a foot – makes it possible to turn the wheeled stand into a fixed support system in just a few seconds.
The wheeled stand can bear various monitor sizes: 46” – 49” – 52” – 55” (with optional wall bracket).
The structure is entirely made of steel, with customizable powder coating and paint colour.
