KALIBRO G STRONG, STACKING AND RIGGING FRAME CAGE PT-RQ35K, PT-RZ34K

SKU: 19748

Material	Iron – Aluminum
removable bar	YES
Pitch	+/3°
Roll	+/3°
Yaw	+/- 4°
Dimension	740 x 940 _ 565 (630) [mm]
Packaging Dimensions	770 x 970 _ h660 [mm]

Categories: Kalibro

Kalibro is a cage with a a single body made of iron tubes, its structure is extremely resistant and ensures perfect fastening to ceiling or wall mounts for landscape, portrait or floor projection systems.

Thanks to a special pin system, it is possible to stack two or more cages, while also ensuring independent calibration for every projector.

Micrometric adjustment on three 3 rotation axes is possible thanks to specific knobs or ratchets, thus making it possible to perfectly centre the lens perpendicular to the projection surface, in order to improve focusing, image definition or to save projector power.

FLIGHT CASE:
23041: normal FLIGHT CASE with standard accessory drawer 40x17x8 [cm]
23042: FLIGHT CASE with additional side container (depth 15 cm) without divider
22827: OPTIONAL PARTITION, possibly to be ordered together with code 23042

**Compatible with cages of third-party companies and for the series of video projectors:*
