Categories: Advanced Kalibration Systems, Kite - Falcon, Matrix

Projector mount with micrometric calibration system on three axes.
It is a micrometric adjustment system:

- +/- 3°: roll
- +/- 3°: pitch
- +/- 4°: yaw

Adjustment is performed via the micrometric adjustment of three columns.
It is equipped with a standard EUROMET attachment both above and below, so it can be attached in series with other optional accessories equipped with a standard attachment.

In addition to the standard mount, the bottom plate also features a provision for attaching a pair of clamps (not included; order code 20977).
The KITE is equipped with comfortable rubber feet for ground support and a system that allows you to determine the zero point and make any subsequent adjustments.

IMQ certification: EN 62368-1:2014+A11:2017 clause 8.7
