Usable Height	1500mm
Height	1850

Categories: Flat Panel Ground Mounts, Flat Panel Mounts

The Opera TAU stand features a new minimalist design while retaining all the characteristics of solidity, flexibility, and modularity typical of the original Opera line.
It allows for stable and solid horizontal positioning of very large and heavy monitors.
The feet are positioned on the outer side of the monitor to allow:

- Alignment of two or more monitors, ensuring image continuity
- Minimizing space usage for the user
- Providing a wide base for the stand, thereby enhancing its stability.

The feet have a new tubular design with reinforced bases, ensuring maximum stability, aided by high-quality lockable wheels.
These features also allow for easy movement, even on uneven surfaces.

Its innovative monitor mounting system offers maximum flexibility along the horizontal axis, utilizing the entire length of the cart.
Cabling can also be managed within the main tubes.
