The Opera Slim stand allows the monitor to be positioned both horizontally and vertically.
Even in the vertical position, it allows two or more monitors to be aligned in a continuous, stable, and precise manner.
The cart's feet are designed to enable monitors of 80 inches and above to be placed side by side, creating a seamless display effect with easily interchangeable monitors.
The feet are positioned on the outer side of the monitor, providing the following advantages:
- Minimizing space usage for the user
- Ensuring a wide base for the stand, thus enhancing its stability.

The feet are longer than average and are equipped with high-quality lockable wheels.
These features also allow for easy movement, even on uneven surfaces.

Its innovative monitor mounting system offers:
- Maximum flexibility along the horizontal axis, utilizing the entire length of the cart

- Quick and easy mounting of any type of monitor
- The option to manage cabling within the main tubes.

The following accessories are available upon request:
- Brackets for video conferencing systems that can be positioned above or below the monitor
- Spacious and durable PC shelves with pre-drilled mounting holes
- Plexiglass shelves
- Rear monitor plate for mounting hardware and other technological components.

Standard color is white, but other colors are available upon request.
