Categories: [Flat Panel Mounts](#), [Led Wall](#)

Opera is the universal wheeled stand for large-sized LED structures.

Its modular structure makes it possible to support large LED-walls and move them easily, even on not perfectly smooth surfaces.

Its structure enables LED-wall installation right over the wheeled frame, thus highlighting linearity and impressiveness of the supported LED-walls.

With the 3-tower structure it is possible to install up to 220" LED-walls.
