Cart Base	Modular
Usable Height	Modular
Pedestal width	1195
Material	Iron – Aluminum
Treatments	Powder coating
Color	Black

Categories: Flat Panel Mounts, Led Wall

Opera LEDwall, modular cart for large LED walls.

The Opera LEDwall cart is a system for LED displays that allows for the mounting and alignment of various panels in many different configurations, even mixed ones.
The system is modular, enabling the creation of the correct configuration both in width and height by properly combining the various components.

Modularity also allows for assembly directly on-site, facilitating both storage and installation.
Transport is simple, with pieces that connect together, avoiding overly long parts. Movement is fast and secure thanks to high-quality, lockable wheels.

Components and hardware can be easily attached to the structure thanks to pre-designed mounting points.
Optional special racks can be added as needed. Cabling is straightforward due to various internal passages in the tubes.
Adjustable braces allow for structural consolidation.
