SKU: 26112

Typology	Ground Mounts
Max VESA	800X400
Base	1004X900
Usable Height	1500mm
Height	1850
Material	Iron – Aluminum
Treatments	Powder coating
Color	White

Categories: Flat Panel Ground Mounts, Flat Panel Mounts

The Opera slim stand allows positioning the monitor both horizontally and vertically. Even in the vertical position, it allows for the continuous, stable, and precise alignment of two or more monitors. In fact, the cart's feet are designed to allow 70-inch and larger monitors to be positioned side by side, creating a seamless, easily interchangeable multi-monitor effect.

The cart feet are extended and equipped with high-quality lockable wheels. These features also allow easy movement on uneven surfaces.

Its innovative monitor mounting system offers maximum flexibility along the horizontal axis, utilizing the entire length of the cart. Cable management can also be handled within the main tubes.

The following options are available upon request:

- TURN system, which allows the monitor to rotate from vertical to horizontal position at any time, even with the monitor already positioned and cabled
- COVER system, which covers the side of the monitor and the cart, giving a design effect similar to a kiosk
