Categories: Flat Panel Mounts, Kalibro, Matrix

This accessory consists of a plate with standard Euromet fastening system and an aluminium profile for 2 clamps.

By fixing the plate to the cage and sliding the clamps along the profile, the required centre distance for fixing the system is easily achieved.

The Clamps used (compatible with the main Ø550 mm truss versions) have a 500kg weight capacity each, with fastening distance up to 400 mm.

Compatibility: all EUROMET products with standard connection

Certification IMQ: EN 62368-1:2014+A11:2017 clause 8.7
