Mode	Floor, Landscape, Portait
Material	Aluminum – Iron
Color	Silver, Black
Treatments	Powder coated
clamp fixing to truss	48 – 51 mm
SWL (SAFE WORKLOAD)	500 Kg (each Clamp)
clamp fixing screw	M12

Categories: Unika

It is a universal accessory compatible with all UNIKA cages that allows a Clamp to be fitted directly to the cage, allowing the latter to be fixed directly to the truss.

Every UNIKA is compatible with this optional item, which can be mounted on 3 sides:

- Upper side (landscape installation)
- Lateral (portrait installation)
- Rear (floor installation)

For each of these 3 sides, it is possible to mount from at least 1 up to max 4 Clamps.

The Clamp can slide along the cage profile bar (thanks to a simplified lock/unlock system) and rotate on itself, allowing it to adapt to many different cases and installation combinations.

The code corresponds to a single Clamp, although 2 Clamps at least are necessary in order for the system to work (4 would be even better).

The Clamp used (compatible with most Ø50mm truss types) has a 500kg load capacity and is equipped with a simplified locking system.

Compatible cages: all UNIKA cages
