Professional dual monitor ground stand (or for a single large monitor) developed for Video Conferences, thanks to the camera shelf on top and predisposition for positioning the camera between the rack and the monitor. Platea Premium has also been designed so that the wiring of all devices remain hidden through holes passing through the rear of the structure. It is equipped with a large and elegant 19” rack cabinet with 17U height with stylish plexiglass cover to install all the equipment necessary for the proper use of two monitors on the structure.
This support has supplied with hooks and an innovative anchoring system that make mounting the monitor on the structure extremely easy. This support features wheels with purposely studied dimensions, allowing for easy transport and movement in any type of collocation.
