• Slide wall monitor stand is a floor stand that allows you to elegantly and safely fix a monitor up to 110 inches to the wall without having to attach it directly.
• The system rests safely directly on the base of the floor stand itself which is designed to rest on the wall
• The stand is then lightly anchored to the wall thanks to a bracket that is hidden behind the monitor
• The system also allows for convenient and safe cable passage inside the stand itself, thus ensuring the cleanliness and beauty of the installation
• The stand will also include all the accessories available for the Slide line, such as PC supports, Sound bar with micrometric adjustment both above and below the monitor
• The monitor can be positioned both in portrait and landscape
• On request, you can also have customized colors of the base or column to get closer and closer to the color of the wall or floor
• Technical drawing
