With this product code it is possible to order a part of the Euromet Dia/Video floor stand: the tilting shelf. It's compatible with all the stands which terminate with a Ø 35mm diameter tube. Useful dimensions of the shelf are 415x355mm and the thickness is 2mm. In order to prevent the equipment from falling, we've created a small tube structure that provides both elegant design and utility. It is possible to tilt the steel plate byh turning the knob.
