CART WITH MONITOR HEIGHT MANUALLY ADJUSTABLE BY MILLIMETER FOR 90° ROTATION OF THE SCREEN UP TO 85 INCHES IN SIZE AND 100 KG

The new TURN SLIDE supporting system is now equipped with an innovative TURN bracket, enabling smooth, stable and compact screen rotation up to 90°.
This item makes EUROMET’s accessories range even more complete in terms of digital signage solutions, thus offering the opportunity to mount touch screen monitors both in portrait and landscape positions, in order to streamline any internet, conference call and design interface with full millimetric height regulation.
The user can therefore adjust the screen height and rotation at any time to reach the portrait position with full-screen mode, thus facilitating user experience, also in case of mobile devices for disabled, such as wheelchairs.

Also available in the following colours: Black (Code: 23882)
