Thanks to the new patented system, it has a constant and regular 90 ° screen rotation, with horizontal and vertical positioning of the interactive monitor without a fixing mechanism.
Below the monitor a shelf is included as a support solution for keyboards, laptops, interactive pens.
Its robust structure is designed to guarantee the total reliability of load and stability in compliance with the regulations in force especially on the anti-tipping.
This stand has been equipped with wheels and made with dimensions specially designed to allow easy transport inside any environment.

It's ideal for any type of Touch Screen, to create, develop ideas, monitor and share projects. Designed for offices, architects, designers and creatives, digital and marketing agencies, conference rooms, classrooms, television studios.
