Roll	+/3°
Yaw	+/- 4°
Cage dimensions Width_Lung_H (H with turned parts)	760 x 780 _ h465 mm
packaging	770 x 890 _ h480 mm

Categories: Unika

Compatible with the Unika 30.11 kt 25 black video projector series and similar products.
It is a frame made of aluminum profiles (30x30 cm) with iron reinforcements, combining strength, lightness, and ease of use. This makes it possible to perform any type of PROJECTION (Landscape, Portrait, Floor) and adapt to any INSTALLATION (truss, ceiling, wall, and floor).

It is equipped with its own STACKING system:

A) For floor installations, approved for up to 3 cages;
B) For suspended installations, up to 2 cages.

The MICROMETRIC adjustment system on the 3 rotation axes is provided by the KITE system fixed to the structure (easily removable without tools for use without the cage):

C) +/- 3° of pitch;
D) +/- 3° of roll;
E) +/- 4° of yaw.

The FLIGHT-CASE can be ordered together with the cage.
