Steel-made ceiling mount bracket, adjustable for videoprojectors, with arm (L400-600mm). It is vertically tiltable (+-25°) as well as horizontally (360°), by adjusting the central part (h40mm) of the assembly swivel. It can be fixed by its spanner which is supplied with the bracket. The support is fixed to the ceiling by a Ø160mm plate with 3 8mm holes, and 3 buttonholes providing quick inspection for maintenance. To apply the Dia-Video to the support, you have to use 4 arms of different dimensions (78/138/168mm). Use the feet to position the arms at the same height, and then fix to the support. M4 and M5 screws and instruction manual included.
