Tilt angle	+/-12°
Thickness	1,5 mm
Material	AL
Treatments	RAL 9005
Typology	Ground Mounts

Categories: Educational Video Projector, Video Projector Mounts

Videoprojector adjustable steel and aluminium floor stand.
Thanks to the new tilting system, it is possible to tilt the steel plate by turning the knob. The steel plate is: 415 mm x355 mm x 2mm. In order to prevent the equipment from falling, we've created a small tube structure that provides both elegant design and utility. The height of the stand is adjustable from 1040 mm. to 1850 mm. by directly adjusting it. To facilitate transport and to save space the top part is completely separable.
